I AM A PAYING SUBSCRIBER to Xm Satalite Radio, and have been for about a year now. I think this is one of the best services to come about. Being a paying subscriber I should be entitled to any programming that the service want to make available to me. I cannot believe that the NAB is raising yet another stick about this. I enjoy satalite radio because of the commercial free aspect and the clarity of the reception. Can the local Stations offer me the same? NO, they cannot, I usually would have to change the channel on my way to work twice because I would lose the signal from one channel. They do not yet offer the local traffic and weather for my area (Syracuse, NY) but I am looking forward to when they do, I think this is a great Idea and should not go away!!!! Thanks!!!
